Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/525,571	Applicant(s) JAGADEESWARAN, PUDUR	
	Examiner Ralph Gitomer	Art Unit 1657	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1657

The response, IDS, and Declaration received 10/17/07 have been entered and claims 1-7, 14 are considered here. Applicant has elected laser irradiation for creating a vascular wound. The amended abstract is acceptable.

The Declaration by the present inventor states that the cited reference by Gregory was published within one year of the priority date of this application and the present inventor is one of the authors of the article.

It is the examiner's position that there are two additional authors to the present inventor on the Gregory reference and the rejection below was made under 35 USC 102(a), therefor the rejection is maintained.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1-7, 14 are rejected under 35 U.S.C. 102(a) as being anticipated by Gregory.

Art Unit: 1657

Gregory (Blood Cells, Molecules and Diseases) entitled "Genetic Analysis of Hemostasis and Thrombosis Using Vascular Occlusion" teaches on page 287, larvae were immobilized in agarose, anesthetized, and wounded with laser light and the injured blood vessel was observed. On page 289 first column, either veins or arteries may be targeted for laser irradiation injury. On page 291 column 1 mutant zebrafish were tested.

All the features of the claims are taught by Gregory for the same function as claimed.

The title of the invention is not descriptive in view of the elected invention. A new title is required that is clearly indicative of the invention to which the claims are directed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
